European buyouts outperforming public equity

Investors who have been in private equity for a long time have seen excellent returns. The key to success lies in investing steadily and for the long term. Looking at historic returns reveals that for example European buyouts outperformed the DAX in 12 of the last 15 years. The high private equity returns between 1998 and 2000 and between 2004 and 2007 came mainly from funds launched about five years earlier. **> More**
